I write to show my support for the firearm amendment bill.

My father was a state rifle shooting champion and I grew up with guns in our home. However, this is not the norm and guns should have restricted access.

Sawn off shotguns should not be able to be accessed by general public. Biekie gangs must be banned from holding firearms. All gangs and groups that choose to break the law must have restricted gun access.

My major concern with new technology and the ability to create at home on 3d printers firearms is of grave concern.

How will this be able to be policed?

This is an emerging manufacturing ability able to be restricted?

All the proposals have my 100% support. We do not want to be like America with firearms accessible to all. They need to be restricted to gun clubs and our wonderful police and security personnel.

Keep up the great work and thank you for the opportunity to have my day.

Ruth Gordon
